

Watershed Security, LLC.

## Fast Facts and Capabilities

### Company Overview

---

Since 2003, Watershed Security, LLC, has provided best value Information Technology solutions to our government and commercial clients. Watershed specializes in Cyber Security enabling our partners to meet their statutory and regulatory requirements in an efficient manner. We also provide program/project management services supporting IT Engineering, integration and operations.

### Our Locations

---

Watershed is headquartered in Chesapeake Virginia serving the greater tidewater area, along with satellite offices in Columbia Maryland and Springfield Virginia serving the Baltimore, Washington and Northern Virginia areas. Our agile business processes allow us to support multiple clients both CONUS and OCONUS: we have personnel deployed throughout the world from California to Diego Garcia.
